Eldress Bertha Lindsay

CANTERBURY
Shaker Village

Elder Henry Blinn and his beehives

The Shakers began worshipping regularly in Canterbury in the 1780s at the 100 acre farm of the Benjamin Whitcher family. In 1792 The United Society of Believers in Christ's Second Appearing were "called to order" by the parent ministry in Mt. Lebanon, N.Y. Master builder Moses Johnson arrived in Canterbury that same year to supervise the building of the Meeting House which today still dominates the Village hilltop on Shaker Road. In 1992 the Village will celebrate its 200th Anniversary with a series of public events and programs centered around a restored Meeting House.

The Meeting House in 1792 was the first of many buildings erected by the Shakers. At its peak in the mid-nineteenth century, the Canterbury Shaker commun-

ity contained some 300 people living and working in more than 100 buildings on approximately 3,000 contiguous acres in Canterbury and Loudon. Shaker Village was, by New Hampshire standards, a sizeable town with a balanced mix of agriculture, industry and domestic production.

Since 1969, when the remaining Shakers deeded all remaining land (690 acres), buildings (23) and possessions to a non-profit educational organization, the Village has developed as an internationally recognized museum. In 1990 more than 50,000 visitors from 50 states and 54 foreign countries arrived at this historic hilltop in Canterbury.

In time, as we look back at 1990, we will see it as a momentous year in the

Dedication

Gentle, kind, humble, charitable, and reverent are but some of the many adjectives to describe the character of one of my most beautiful friends, Bertha Lindsay. Although she had the position of Eldress at Canterbury Shaker Village, she always preferred the simple title of Sister.

“Bud,” she would say, “had you known the wonderful Eldresses that I knew in my early years, you would understand why I fall far short of such an exalted title.”

Sister Bertha, or “Bersy” as my children always called her, was more than just a friend; she was our family. Our children loved her as did many other children. Her gentle manner, her infectious laugh, and her sincere love endeared her to us all. As a leader, she did not demand but rather coaxed others to follow. Her presence permeated her home with a spiritual radiance. Her absence leaves an empty place that cannot be filled.

Charles Bud Thompson

TOWN OFFICERS
(Elected)

Selectmen (3 Yrs.)

Leroy Glines, Chairman (1991)

WARRANT FOR THE ANNUAL TOWN MEETING

State of New Hampshire

The Polls will be open from 7:00 A.M. to 7:00 P.M.

To the inhabitants of the Town of Canterbury in the county of Merrimack in said State, qualified to vote in Town affairs.

You are hereby notified to meet at the Town Hall in said Canterbury on Tuesday, the twelfth day of March, 1991 at seven o'clock in the forenoon, to act upon the following subjects:

FIRST SESSION

1. To choose all necessary Town Officers for the year ensuing, by ballot.
2. To see how the Town will vote on the following zoning amendments proposed by the Planning Board and by citizen petition to be voted upon by official ballot:

Question 1. Are you in favor of the adoption of Amendment No. 1 as proposed by the Planning Board for the Town zoning ordinance as follows: Amend the zoning ordinance, under Article #3, Definition of a Minor Subdivision, by deleting in the first sentence the words "requiring no new roads", so the definition reads as follows: SUBDIVISION MINOR: A subdivision of fewer than four (4) lots.

Question 2. Are you in favor of the adoption of Amendment No. 2 as proposed by a petition for the Town zoning

ordinance as follows: Modifying "The Zoning Map of the Town of Canterbury, N. H." as set forth below:

Change to the Rural zone the land within the first bend of the Merrimack River North of Hoit Road that is now in the Agricultural-Conservation zone. All land in that area that is presently in the Commercial zone would remain so. **Not recommended by the Planning Board**

Question 3. Are you in favor of the adoption of Amendment No. 3 as proposed by a petition for the Town zoning ordinance as follows: The TABLE OF PRINCIPAL USES of the Canterbury Zoning Ordinance be amended to add the following footnote after "convenience store with gas pumps and no repair facilities":

"No such convenience store shall be denied a permit for failure to provide public restroom facilities." **Not recommended by the Planning Board**

Question 4. Are you in favor of the adoption of Amendment No. 4 as proposed by a petition for the Town zoning ordinance as follows: The TABLE OF PRINCIPAL USES of the Canterbury Zoning Ordinance be amended to change "convenience store with gas pumps and no repair facilities" from a use permitted by Special Exception to a use permitted by right in the Commercial (C) District. **Not recommended by the Planning Board**

SECOND SESSION

The second session shall be held at the Canterbury Elementary School on Friday the 15th day of March, 1991 at 7:00 o'clock in the evening to act upon the following subjects:

3. To raise such money as may be necessary to defray Town charges for the ensuing year and make appropriations for the same.
4. To see if the Town will vote to authorize the Board of Selectmen to borrow money in anticipation of the collection of taxes for the current municipal year, and to issue, in the name of and on the credit of the Town, negotiable notes therefore.
5. To see if the Town will vote to authorize the Selectmen to sell property taken by Tax Collector Deed by public auction, or sealed bid, or as justice may require after consultation with the Conservation Commission. (RSA 80:42)
6. To see if the Town will authorize the Selectmen to apply for, receive and expend Federal or State grants or funds from private sources provided that a public hearing shall be held by the Selectmen prior to the expenditure of such grants and moneys.
7. To see if the Town will vote to authorize the Selectmen to allow the local snowmobile clubs the use of the Canterbury-Boscawen bridge for a multi-use winter recreational trail, as long as the clubs can show that insurance coverage would protect the Town in the event of a lawsuit, and that the existing bridge structure will not be damaged or materially altered. (The structure would be a bridge within a bridge.) The bridge would be closed to wheeled vehicles and padlocked during the non-winter seasons. Prior to construction, a qualified engineer chosen by the Town will inspect the bridge and give the Town assurance that the bridge within a bridge will be structurally safe and the cost of the inspection will be borne by the snowmobilers. (By Petition)

8. To see if the Town will vote to designate as a town forest the twenty-acre (more or less) woodlot known as the Foster lot, Tax Map #10, Lot #005, on Briar Bush Road which is now owned by the Town. The purpose of which shall be to encourage the proper management of timber, firewood, and other natural resources for multiple use programs consistent with a forest management program. This action is authorized under RSA 31:110.
9. To see if the Town will enable the full carrying out of the agreement negotiated with Donald and Lois Booth by the Conservation Commission in 1988 for the bargain sale of land to the Town, by accepting as a Class V road, a road built to Town standards located in the area where a road is shown on the map prepared by the Conservation Commission for the Town of Canterbury's application to the Land Conservation Investment Program, at such time as the Selectmen have certified that the road meets the minimum standards for a Class V gravel road, and the Planning Board has approved the location of the road as conforming with zoning and subdivision regulations apart from the question of what zone the road is located in. (By Petition) (Not recommended by the Selectmen)
10. To see if the Town will vote to raise and appropriate the sum of nine thousand dollars (\$9,000) for the purchase of a new sander body and to authorize the withdrawal of nine thousand dollars (\$9,000) from the New Highway Equipment Capital Reserve Fund.
11. To see if the Town will vote to amend Article 10, Section 2, of the 1988 Town Meeting to change the percentage of revenue collected pursuant to RSA 79-A (the land use change tax) and deposited into the Conservation Fund from 100% to 50% in accordance with RSA 36-A:5 III as authorized by RSA 79-A:25 II.
12. To see if the Town will vote to authorize a vehicle registration fee of five dollars (\$5) for heavy equipment vehicles,

three dollars (\$3) for automobiles and light trucks, and two dollars (\$2) for all-terrain vehicles. Revenue is to be used for the removal of tires, used motor oil and recycling services pursuant to RSA 261:153V.

13. To transact any other business that may legally come before this meeting.

Given under our hands and seal, this twenty-fifth day of February, 1991

Leroy A. Glines, Chariman
Michael T. O'Neil
Earl W. Hall
Selectmen of Canterbury

A true copy of Warrant — Attest:

Leroy A. Glines, Chairman
Michael T. O'Neil
Earl W. Hall
Selectmen of Canterbury

We hereby certify that we gave notice to the inhabitants within named, to meet at time and place and for the purpose within mentioned, by posting up an attested copy of the within Warrant at the place of meeting within named and like attested copies at the Canterbury Post Office and the Sam Lake House Town Offices being public places in said Town on the 25th day of February, 1991.

Leroy A. Glines, Chairman
Michael T. O'Neil
Earl W. Hall
Selectmen of Canterbury

MINUTES OF TOWN MEETING (Business Portion)

March 16, 1990

The adjourned Town Meeting was opened at 7:00 p.m. on Friday, March 16, 1990, by the Moderator, Oliver Fifield. A review of the ground rules was presented. Citizens were asked to identify themselves when speaking and to direct all questions to the Moderator.

The Moderator read the results of the balloting from the first session of Town Meeting which was held on Tuesday, March 13, 1990, at the Town Hall.

Robert Scarponi moved to dispense with the reading of the entire Warrant and take the Warrant up Article by Article. Duly seconded. Passed by a voice vote.

Article 6.

To raise such money as may be necessary to defray Town charges for the ensuing year and make appropriations for the same.

Robert Scarponi moved the adoption of the budget as printed. Roy Glines seconded.

Mary Ellen Fifield questioned the increase of \$4,400 on the Highway/Fire Department Maintenance budget. Bob Scarponi, Chairman of the Selectmen, explained that the garage doors on the Highway Department building will need to be replaced this year.

Catherine Newick asked if the large increase of the Solid Waste Disposal budget is reflective of the passing of Warrant Article #16 in regard to mandatory recycling. Bob Scarponi explained that most of the increase in the Solid Waste Disposal budget is due to tipping fees. If the bottles, cans, newspapers, etc. are recycled rather than transported to the Co-op, the weight of the trash will be reduced; therefore, the cost of tipping fees will be reduced.

Calvin Dowling asked about the increase in the Town Officers' Salaries budget. Bob Scarponi said that the biggest increase is for the Town Clerk Fees to cover the cost of handling license plates at the Town Office in Canterbury this year.

Ginger LaPlante asked why the Town did not spend the \$12,500 that was appropriated for Town Hall maintenance last year. Roy Glines explained that before any renovations are made on the Town Hall, the Historic value should be determined. Our primary concern is to have the windows repaired. People at Shaker Village were consulted to learn the best way to restore the Town Hall; but since the work did not get done in 1989, the money went back into the general fund and was not appropriated in 1990 to keep costs down. Bob Scarponi said that money was in the budget for 1990 to cover the cost of minor repairs to the windows in the Town Hall. Bob Scarponi also mentioned that the Town should consider having some renovations done to the Houser Museum in the near future.

The question was moved. The motion to accept the budget as printed in the amount of \$570,539.11 was voted on and passed.

Article 7.

To see if the Town will vote to authorize the Board of Selectmen to borrow money in anticipation of the collection of taxes for the current municipal year, and to issue, in the name of and on the credit of the Town, negotiable notes therefor.

Robert Scarponi moved the adoption of this article. Cheryl Gordon seconded.

Article 7 was voted on and passed.

Article 8.

To see if the Town will vote to authorize the Selectmen to sell property taken by Tax Collector Deed by public auction,

or sealed bid, or as justice may require after consultation with the Conservation Commission. (RSA 80:42)

Robert Scarponi moved the adoption of this article. It was seconded by Roy Glines.

Article 8 was voted on and passed.

Article 9.

To see if the Town will authorize the Selectmen to apply for, receive and expend Federal or State grants or funds from private sources provided that a public hearing shall be held by the Selectmen prior to the expenditure of such grants and moneys.

Roy Glines moved the adoption of this article. Michael O'Neil seconded.

Article 9 passed by a voice vote.

Article 10.

To see if the Town will vote to change the name of Abbott Road to Abbott-Bradley Road.

Robert Scarponi moved the adoption of the article. Roy Glines seconded.

Cynthia Olson, who resides on Abbott Road, asked the selectmen to include this article in the warrant. She explained that at one time, Abbott Road was actually two separate roads; Abbott Road and Bradley Road. She requested that the name of the road be changed to Abbott-Bradley Road for historical purposes and for the purpose of clarifying deed descriptions.

A vote was taken on Article 10 and was passed by a voice vote.

Article 11.

To see if the Town will authorize the closing of the Capital Reserve-Fire Truck Trust Fund and to authorize the expen-

diture of the balance of said fund amounting to approximately eight thousand nine hundred thirty-three dollars (\$8,933) and further to raise and appropriate an additional sum of six thousand six hundred thirty-six dollars (\$6,636) to refurbish the 1972 Ford Fire Truck with the total expenditure not to exceed fifteen thousand five hundred seventy dollars (15,570).

Robert Scarponi moved to amend the article to read, "To see if the Town will vote to discontinue the Capital Reserve-Fire Truck Fund and also to raise and appropriate the sum of \$15,570 to refurbish the 1972 Ford Fire Truck." Cheryl Gordon seconded the motion.

Bob Scarponi explained that after consulting with the Department of Revenue Administration in regard to the wording of this article, it was advised that when a Capital Reserve Fund is discontinued, the proceeds should go into the general fund and shown as an income item for the Town.

Mason Newick asked if the passage of this article would mean that we would be closing out the Capital Reserve-Fire Truck Fund and not utilizing it in the future. Bob Scarponi told him that the Capital Reserve Fund had been established some years ago for a purpose such as this, and another fund can be established in the future, if needed.

Dale Caswell, Fire Chief, explained that the 1972 Ford Fire Truck is well-built and the Fire Department feels that by making a small investment, the service life of the truck can be extended considerably.

A vote was taken on the amendment to Article 11 and passed.

Article 11 was voted on as amended and passed.

Article 12.

To see if the Town will raise and appropriate the sum of twelve thousand dollars (\$12,000) for renovations to the old Fire Station to better house the Police Department offices.

John Pratt moved the adoption of this article. Roy Glines seconded.

Harry Heath, Police Chief, asked the selectmen to explain what they expected to get done on the Fire Station with \$12,000.

Roy Glines, Selectmen, explained that they planned to hire an architect for plans for renovations to the building. He said that they are going to try to replace the heating system, repair one bay of the garage, repair the rotting door, and have some waterproofing done to the room that is now being used as an office by the Police Department.

Chief Heath said that he thought the \$12,000 may be enough for architectural plans, but he did not feel that it would be a sufficient amount to do the renovations that are needed. He mentioned that the Police Department needed a safe place to store evidence and that there is water coming in on the floor of the office. Chief Heath also mentioned that they should have some bathroom facilities installed.

Tom Cochrane, a builder, said that he had previously given the Police Department a rough estimate for renovations and thought that the work could be done for approximately \$30,000 without changing the appearance of the building.

Chief Harry Heath moved to amend the article to appropriate **\$30,000** instead of \$12,000 for the renovations to the old Fire Station. The motion was second by Ed Blais.

Ed Blais, Police Officer, spoke in favor of the amendment, detailing the poor condition of the Police Department offices.

Mike Winograd asked if money could be used from the Sam Lake Trust Fund for this purpose. Bob Scarponi answered that the resources of the Sam Lake Trust Fund have been committed to the Sam Lake House for the next three years.

Alan Crabtree mentioned that there was discussion last year at Town Meeting with regard to the condition of the

Police Department building, and he spoke in favor of the amendment to this article.

After considerable discussion, the question was moved.

Article 12 was voted on as amended and passed.

Article 13.

To see if the Town will vote to authorize the closing of the Capital Reserve-Road Grader Trust Fund amounting to approximately fifty-eight thousand five hundred fifty-nine dollars (\$58,559).

Robert Scarponi moved to postpone consideration of this article until Article 14 and Article 15 are considered. Motion seconded and passed.

Article 14.

To see if the Town will vote to authorize the expenditure of thirteen thousand dollars (\$13,000) from the proceeds of the Capital Reserve-Road Grader Trust Fund to purchase a 1973 Road Grader.

Robert Scarponi moved its adoption. Michael O'Neil seconded.

Bob Scarponi moved to amend the article to read, "To see if the Town will vote to raise and appropriate the sum of \$13,000 for the purchase of a 1973 Road Grader and to authorize the withdrawal of that amount from the Road Grader Capital Reserve Fund." The motion was seconded by Mike O'Neil.

Bob Scarponi explained that the Town currently owns a 1970 Road Grader and Hugh Fifield, Road Agent, suggested that they purchase a 1973 Road Grader which is in good condition with low mileage. The advantages of having two graders were discussed.

A vote was taken on the amendment to Article 14 and passed.

Article 14 as amended was voted on and passed.

Article 15.

To see if the Town will vote to authorize the expenditure of the balance of the proceeds of the Capital Reserve-Road Grader Trust Fund (approximately thirty-five thousand dollars (\$35,000) and further to raise and appropriate the sum of twenty-five thousand dollars (\$25,000) for the purpose of purchasing a new loader for the Highway Department.

Mike O'Neil moved its adoption. Roy Glines seconded.

Robert Scarponi moved to amend the article to read, "To see if the Town will vote to authorize the expenditure of the balance of the proceeds of the Capital Reserve-Road Grader Trust Fund (approximately **\$45,000**) and further to raise and appropriate the sum of **\$15,000** for the purpose of purchasing a new loader for the Highway Department. Motion seconded. This amendment was necessary to correct a mathematical error.

Bob Scarponi, Selectmen, explained that our present loader is wearing out and we need a replacement.

Hugh Fifield, Road Agent, spoke in favor of the passage of this article stating that the Town's loader is about 14 years old and it has a good trade-in value.

A vote was taken on the amendment to Article 15 and passed.

Article 15 as amended was voted on and passed.

Article 13.

Robert Scarponi moved to amend Article 13 to read, "To see if the Town will vote to discontinue the Capital Reserve-Road Grader Fund and further to raise and appropriate the sum of \$13,000 for the purpose of a 1973 Road Grader and further to raise and appropriate the sum of \$60,000 for the purchase of a loader for the Highway Department." Michael O'Neil seconded.

A vote was taken on the amendment to Article 13 and passed.

Article 13 as amended was voted on and passed.

Bob Scarponi made a motion to rescind the previous action taken on Article 14 and Article 15 because the same action is contained in the acceptance of Article 13. The motion was seconded by Roy Glines and was passed unanimously.

Article 16.

To authorize the Selectmen to require that waste generated in the Town of Canterbury shall be subject to mandatory recycling and to empower them to regulate the standards and procedures thereof.

Ginger LaPlante moved the adoption of this article. Duly seconded.

Allen Crabtree asked if a fine would be imposed if a person did not separate the glass. Mike O'Neil answered that at this time there is no fine proposed; but if the glass is not separated, it will have to be done at the dump or they will be asked to leave with their trash. There have been glass bins constructed at the Canterbury Town Dump with the money from the insurance proceeds (a result of the incinerator fire).

Mike O'Neil, Selectman, explained that the acceptance of this article would allow the attendants at the dump to insure that recycling is done to reduce the tonnage that goes to the plant in Penacook; thus, reducing the tipping fees.

Allen Crabtree asked if there would be someone working at the dump to help with the sorting of cans and bottles. Mike O'Neil answered that there will be money in the budget to cover the cost of hiring a manager at the dump and there will be two people there at all times.

Arline Cochrane asked if there would be more thorough instructions in regard to recycling of certain items. Melanie Stephens, Chairperson of the Recycling Committee, ex-

plained that a flyer will be created to explain the process of recycling.

A vote was taken on Article 16 and passed.

Article 17.

To see if the Town will vote to raise and appropriate the sum of seven thousand dollars (7,000) for the building of a road and parking area at the Town-owned conservation area along the Merrimack River.

Ginger LaPlante moved the adoption of this article. Roy Glines seconded.

Ken Stern, a member of the Conservation Commission, explained that we should be maintaining the land that was donated to the Town by the Booths. A plan was presented of the parking area and road that is planned for the Town-owned conservation area at the Merrimack River. The Conservation Commission talked with an engineer who gave them an estimate of \$20,000; the selectmen talked with a contractor in Town that said the job could be done for \$7,000.

Mary Ellen Fifield wondered how the parking area was going to be maintained as far as the trash goes. Ken Stern said that the Conservation Commission is assuming responsibility for periodic trash pickups at the area.

Joe Harpham asked if we are exposing ourselves to more liability with a new parking lot. Ken Stern answered that the parking lot would add no more liability; in his opinion there would be less liability.

A vote was taken on Article 17 and passed.

Article 18.

To see if the Town will vote to authorize the Selectmen to allow the local snowmobile clubs the use of the Canterbury/Boscawen bridge for a multi-use winter recreational trail, as long as the clubs can show that insurance coverage would protect the Town in the event of a lawsuit. (The structure would be a bridge within a bridge.) The bridge would be

closed to wheeled vehicles and padlocked during the non-winter seasons. (By Petition) (Not recommended by the selectmen.)

Lou Cote moved the adoption of this article. Ron Corriveau seconded.

Tom Cochrane spoke in favor of this article as President of the New Hampshire Sno-Shakers. He explained that the snowmobile clubs in the State are covered for liability by a \$2,000,000 policy which has year-round coverage. The clubs' plans are to build a bridge inside the existing structure and it would be approximately five feet wide. They plan to close the bridge to wheeled vehicles and it would be padlocked during the non-winter seasons.

Ron Corriveau asked if the new structure would be load-bearing on the platform of the existing bridge. Tom Cochrane did not feel that this bridge would be load-bearing.

Mary Ellen Fifield spoke against the passage of this article with regard to the liability. The bridge is not safe and it is almost impossible to keep people off the bridge.

Glenn Geiger asked if the \$2,000,000 liability insurance coverage is per accident. He also wanted to know if there were any permits necessary from the State before this structure can be built. Lou Cote from N. H. Sno-Shakers answered tht the \$2,000,000 is per accident and as far as he knows, there are no permits needed.

Dale Caswell spoke in favor of the adoption of this article stating that the bridge would be made safer and people are going to be using it anyway.

Geoff Souther asked why this article was not recommended by the selectmen and he also mentioned that last year there was considerable discussion about the possible demolition of the bridge and as a legislative body, we voted to form a committee to study with Boscawen the renovation and historic value of the bridge. He wanted to know the outcome of this study.

Bob Scarponi, Chairman of the Selectmen, mentioned that over the years, the selectmen have been very concerned about the liability with regard to the Canterbury/Boscawen bridge. Last year the selectmen recommended the demolition of the bridge and a committee was appointed to determine the historical significance of the bridge and the architectural value. In consulting with the Town attorney, suggestion was made that the focus of the Town's concern should not be on the insurance coverage but rather on the suitability of the bridge for the intended use. Engineering studies have been done on the bridge, and the selectmen are not convinced that it is structurally sound.

Jim Bassett spoke on behalf of the committee that was established to study the historic value of the Canterbury/Boscawen bridge. They have met with State and Federal officials looking for funding sources to investigate the future uses of the bridge, but they are in the middle of the process and they are not prepared to tear down the bridge or make any recommendations at this time. The committee is, however, willing to support this article provided that there are amendments made.

Jim Bassett moved to amend the article to read, "To see if the Town will vote to authorize the Selectmen to allow the local snowmobile clubs the use of the Canterbury/Boscawen bridge for a multi-use winter recreational trail, as long as the clubs can show that insurance coverage would protect the Town in the event of a lawsuit **and that the existing bridge structure will not be damaged or materially altered.** (The structure would be a bridge within a bridge.) The bridge would be closed to wheeled vehicles and padlocked during the non-winter seasons. **Prior to construction, a qualified engineer chosen by the Town will inspect the bridge and give the Town their assurance that the bridge within a bridge will be structurally safe and the cost of the inspection will be borne by the snowmobilers.**" The motion was seconded by Lou Cote.

After considerable discussion with regard to the liability problems, a vote was taken on the amendment to Article 18 and was passed by a voice vote.

Article 18 as amended was voted on and was defeated.

Article 19.

As citizens of New Hampshire assembled at our Town Meeting and concerned over the present and future well-being of our Town, State, Nation and World, we call on our representatives in Washington to work vigorously for substantial reductions in military spending, and to redirect our federal tax dollars toward such purposes as education, environmental protection, deficit reduction, farming, housing, health care and welfare of the elderly and children. (By Petition)

Lois Booth moved the adoption of this article. It was seconded.

Lois Booth spoke in favor of adopting this article.

Article 19 was voted on and passed unanimously.

Article 20.

To transact any other business that may legally come before this meeting.

Bob Scarponi expressed appreciation to Sumner Dole for volunteering to compile a request for proposal for a cable television system for Canterbury. Sumner Dole reported that eight proposals were sent out to different companies and we received answers from three companies. After comparison was made of the three companies, Continental Cable was selected who offered to cable 96% of the town. Prior to the signing of the franchising, a public hearing will be held.

Olivia Henry moved that Canterbury proclaim April 22 as Earth Day, part of a world wide effort to promote environmental protection. The motion was seconded and passed.

Geoff Souther reminded the townspeople to attend the March 23 School District meeting.

John Nay mentioned that we should thank Bob Scarponi, who served as Selectman for many years, and Alan Hodsdon, as Chairman and a member of the Planning Board.

Jim Lilly was thanked for the excellent job that he did on the cover of the Town Report, and Jan Cote was commended for the research that she did on the Sam Lake House.

The meeting was adjourned at 10:40 p.m.

Respectfully submitted,
Kathryn Dickson for
Cheryl Gordon, Town Clerk

SELECTMEN'S REPORT

The Selectmen devoted a great deal of time to a number of projects this year.

The Police Station is renovated and now occupied by the Police Department. This project was completed on time and within budget. It is impressive to have such a modern facility located in the center with no change to our "historic center" landscape. We want to thank the members of the Police Department, the designer, Ann Fifield Weger, and the contractor, Tom Cochrane, for a job well done.

Another project undertaken at the direction of the March town meeting, was to create a parking area at the Merrimack River land off of Shoestring Road. Many hours were spent by Mike O'Neil and Earl Hall to get this project done for the money appropriated. Willie Nelson Construction is congratulated by the board for his company's excellent work.

The Highway Department is proud of the used road grader we purchased. It worked throughout the grading season very satisfactory. Another purchase was a Dresser Payloader from the R.C. Hazelton Co. of Manchester. It was purchased only after competitive bidding and at a substantial savings to our town.

The Fire Department asked the town to recondition a 1972 Ford F-750 Fire Truck. The truck, which has been out of service for several months, should serve the town as a very useful piece of equipment for many years to come. It will return to service sometime during 1991. A special thank you to the Fire Department for a spectacular 4th of July display.

Reporting on the industrial land is not one of the more positive aspects of this Selectmen's Report. The committee had several meetings on this subject. One meeting included a presentation by professional land planner Lucia Kitteredge.

Many things need to be fully ironed out before any reasonable development of this property can be considered. Please see the Industrial Report for more information.

As directed by Town Meeting the selectmen established a cable committee to assist in the selection of a cable carrier. The committee chaired by Sumner Dole and the selectmen chose Continental Cablevision. Sumner's report follows elsewhere in the Town Report.

We should all be proud of the new addition to the Canterbury Elementary school. The addition should allow plenty of room for the March 1991 Town Meeting.

The Town Hall has had its windows repaired and furnaces serviced. This being the oldest Town owned building, the Selectmen feel it is important that it be maintained and preserved. The use of this building for the Annual Spring Play by townspeople is an excellent use of this facility. We hope that the Historical Society will accept stewardship of this building and preserve it for future generations to enjoy.

The selectmen were represented by Roy Glines at a meeting of the Canterbury Fair Committee. After an evening of lengthy discussion the vote was to **not continue to hold the fair in 1991** in its present format. Some discussion as to the future of the fair was held. A possible move might be to coordinate it into some of the events at Shaker Village. A meeting with the Shaker Village Director will be held in January to see if something can be worked out.

With the invasion of Kuwait in 1990 there comes a great deal of change and concern for a number of Canterbury residents and their loved ones. We are proud of our military men and women, whether they serve here at home backing up our troops or in the Persian Gulf. We all look forward to their safe return.

In summary, the selectmen urge all townspeople to read the reports of all the Departments in this Town Report. The selectmen want to thank the many volunteers for their

countless hours of service to our community. All of this effort makes Canterbury a great town to live in.

Respectfully submitted,

Board of Selectmen

Leroy A. Glines, Chairman
Michael T. O'Neil
Earl Hall

REPORT OF THE CEMETERY TRUSTEES

Canterbury Cemetery Regulations

1. All lot owners shall be governed by the rules of the Cemetery Trustees.
2. The cemetery Trustees shall be responsible for all cemetery affairs — revising rules and rates as conditions change.
3. The Maple Grove and Center Cemeteries shall be kept in such condition as to be a credit to the community. All outlying cemeteries to be mowed annually, or as needed.
4. All lots sold shall include Perpetual Care. Price at this time is \$150.00 per grave unit with \$100.00 of this amount for perpetual care.
5. Perpetual care shall mean the annual upkeep only. Initial grading, seeding, purchase of stone and stone maintenance shall be the responsibility of the lot owner.
6. A concrete vault or liner is required for all burials.
7. No monument or stone shall be erected until lot purchase is paid in full.
8. Only one upright memorial per two or more grave lots. Single grave markers and corner posts are to be flush with the grade.
9. No curbing, fencing, hedging, or enclosures of any kind shall be allowed around any lot. The Trustees reserve the right to remove same if so erected, planted or placed.
10. No change of grade without the approval of the Trustees.
11. No lot owner shall erect or place or cause to be erected any memorial without prior approval of location from the Trustees.
12. All work done in the cemeteries shall be subject to approval of the Trustees.

13. No breakable containers to be used for plants or flowers.
14. No bicycles, motorcycles, snowmobiles, off highway recreational vehicles or horses shall be permitted in the cemetery.
15. The trustees shall keep all records as required by law.
16. The Trustees shall compile and have printed a list of rules and regulations and make them available to all interested parties.
17. The cemeteries will be closed from the time of the first snow until the spring thaw. No interments will be permitted during this time nor will the roads be plowed.
18. Lots to be sold to resident families only.
19. In case of hardship special consideration will be granted at the request of the Selectmen.

In the past two years there has been some destruction and vandalism in our community cemeteries. Anyone seen causing destruction in the cemeteries should be reported to the proper authorities at once. If we all work together perhaps we can keep our local cemeteries looking as they once did.

REPORT OF THE HISTORICAL SOCIETY — 1990

With support from the Board of Directors and an active membership, 1990 was a busy and productive year for the Historical Society. Activities begun the previous year were completed and new endeavors mapped out. In October, the Board met for a full day to discuss long-term planning for the Society, a process that should benefit both the membership and community for years to come. Two new Board members were welcomed after the Fall elections and Nola Stokes, after many years of faithful commitment to the Society, was elected an Honorary Member for life. The bylaws have been reviewed and revised and subcommittees have begun to develop a Collections Policy which will be used to manage the current holdings in the Museum as well as future additions. The Board voted to give a year's free membership to all new families moving into town and to all persons who purchase a copy of Lyford's **History** at the Museum.

The problem of adequate storage space for the Collection was helped greatly by the Selectmen's willingness to allow a secure storage area to be built in the basement of the Sam Lake House. 1990 funds from the town are being used to purchase building materials. With other funds, the Society has judiciously purchased several items of historical value relating to Canterbury — sets of school registers dating from the mid-19th to early 20th centuries and some 18th century legal writs (found in a Maine dump!). From a bequest in the will of a former Canterbury resident, funds have been set aside to allow purchase of small acquisitions in the future and, with matching funds, to copy the Luther Cody glass negative collection. Papers from our Collection relating to surveys and roads in Canterbury are being donated to the State Archives (after making copies for our use).

Three Open House events were held at the Houser Museum during 1990 and more are expected next year. New exhibits (buttermolds, the Worsted Church; and photographs of 19th

century summer visitors) were mounted. Bulletin Boards were built, donated and hung on the south wall of the Museum for future photography exhibits. The Society's Oral History Project was rejuvenated; Board members attended workshops on funding and management of Collections; an edition of the Newsletter was sent to all households in town in the Spring; and a start on cataloguing our book collection has been made. In April, items from our manuscript collection were used in an exhibit of Canterbury regional needlework put on by the Hood Museum at Dartmouth. Closer to home, our complete collection of town reports is being used by a Canterbury resident to compile demographic statistics over the past 130 years.

The past year has been a busy and fruitful one. I am personally grateful to the Board, Society members and town residents who have helped move us forward as we continue to look to our past.

Patricia A. Andrews
President
Canterbury Historical Society

ELKINS LIBRARY REPORT OF THE TRUSTEES — 1990

This past year has been a busy one for Elkins Library. Circulation has continued to grow and we have registered many new library patrons. In order to meet N.H. State Library privacy requirements, we have also reregistered all town residents who have held library cards prior to 1990 and assigned numbers for use in signing out books.

The town's librarians have done much to improve library services. Books have been reorganized on the shelves to make them more accessible. A monthly story hour for young children has been instituted and has proven to be extremely successful and well-attended. Many additions have been made to the library's children's and adult books, and the collection of "books-on-tape" has also been expanded. Books continue to be available from all over the state library system through the interlibrary loan system, and town residents who are unable to visit the library due to ill health or lack of transportation are encouraged to call the library to request books.

Once again the library's summer reading program for children, "Readlicious," was very successful and brought many children into the library. The annual library Christmas open house allowed families the opportunity to visit Santa Claus, make Christmas crafts, and visit with friends and neighbors over cookies and cider. Bob Scarponi's assistance in our visit from Santa was very much appreciated. Programs for adults included a spring talk on herbs given by Heidi Sandri, herbalist at Canterbury Shaker Village, and a forum for authors living in town to discuss writing and share their work.

The exterior of the library has been improved by the installation of a new sign giving library hours and by the repainting of all exterior trim. Thanks to David Swenson for his work organizing and overseeing these two projects.

Over the course of this year, the library trustees have welcomed new members Simon Leeming, who has taken over the duties of treasurer, and Elizabeth Kaminski, who was appointed by the selectmen for the remainder of this year. Many thanks go to Edith Posselt and to Mark Hampton for their work as trustees.

All town residents are invited to stop by to borrow some of the library's books, magazines, or tapes. We appreciate the town's continued support and welcome any suggestions for library improvement that you may have.

Barbara Cook, Chairman

1990 was again a very successful year at the Elkins Library. The circulation increased and there are many new card holders. Our new story hour for children has been well attended and the inter-library loan service is very active. Our new copy machine will be available for public use. Thank you for your patience with this matter. Please come and enjoy your library.

REPORT FROM THE CANTERBURY VOLUNTEER FIRE AND RESCUE

As you'll be able to see from the call summary to be passed out at town meeting, we continue to be very active, and were called out 121 times during 1990 to respond to fire and/or rescue emergencies in Canterbury or in surrounding towns under the Capital Area Mutual Aid Compact.

Medical calls continue to make up about half of our calls. The 61 calls involved 70 patients and included: an emergency child birth (a healthy baby girl); 2 rescues of para-planes caught in treetops; 9 cardiac cases, 5 respiratory problems, and 31 trauma cases (cuts, bruises, and fractures). 31% of the calls involved motor vehicle accidents. 1 out of every 4 of these occurred on Interstate 93. Repeat calls were received from other locations as well, for example: 6 for Canterbury Elementary School, 6 for Shaker village of Shaker Road, 8 for Intervale Road, and 6 for the Spruces.

In addition to 18 in-house training sessions, several members attended a 116-hour Hazardous Materials training program and an Incident Command System session. Our membership now includes 7 EMT's, 7 First Responders, and 9 Certified Firefighters. As you can see, training is — and will continue to be — our first priority.

The Capital Area Mutual Aid Compact provides dispatch service to its 18 member towns. The total area of the Compact is 643 square miles; contains property valued at nearly 5 billion dollars; and has a population of 91,000. The member towns assist one another during emergencies with equipment and personnel; train together in large scale fire exercises and mass casualty drills; and benefit from the expertise of a salaried Chief Coordinator who assists the local Incident Commander.

Your promptness in calling us during an emergency makes the damage that has been done — and may be continuing to occur — that much easier to remediate. Please . . . call us **first** . . . and then do the best you can to help those in need.

Respectfully submitted,

Dale Caswell, Chief
Canterbury Fire Dept.

REPORT OF THE FOREST FIRE WARDEN

From a wildfire standpoint, 1990 was just an average year. Most of the activity was concerned with permit and non-permit brushpile fires that got out-of-control. Campfires and lightning strikes accounted for the balance of the 489 fires and 473 acres burned statewide.

You should be aware that New Hampshire State Law (RSA 224:27 II) requires that, "No person shall kindle, or cause to be kindled, any fire, or burn any material in the open, except when the ground is covered with snow, **without first obtaining a written fire permit from the Forest Fire Warden or Deputy Wardens of the town where the burning is to be done.**" Violation of the law is a misdemeanor punishable by fines of up to \$1000. and/or a year in jail. You are also liable for all suppression costs.

Canterbury firefighters responded to several towns to assist their forest fire efforts, including the town of Moultonboro, where we helped darken the 262 acre Red Hill fire. We worked through the night and were treated to a dawn breakfast. And who should be there to make sure we were well fed? None other than former Canterbury Fire Chief Bob Lee — who now lives in Moultonboro.

This year the State will not be able to fund the fire towers until after July. In my opinion, the spotters in the towers give us **the edge** when it comes to keeping wildfire damage to a minimum. If you see any suspicious smoke in your neighborhood, be sure and call our emergency number (225-3355).

Respectfully submitted,

Dale Caswell
Forest Fire Warden

REPORT OF THE PLANNING BOARD — 1990

During 1990 the deterioration in New Hampshire's economy was reflected in a dramatic decrease in the number of applications for subdivision approval received by the Planning Board. The lull in development activity in Canterbury enabled the Board to devote its resources and time not solely to review of subdivision and site plan applications, but also to comprehensive planning for the future so that the Town will be in a stronger position to plan and direct future development when the economy recovers.

At Town Meeting in 1990, the Town approved several amendments to the zoning ordinance. The revised zoning ordinance is easier for both applicants and the Planning Board to understand and apply, and it incorporates new protection for environmentally significant areas of Town, including one of our most valuable resources, the Merrimack River. Recently, the Board has undertaken a thorough revision of subdivision and site plan regulations to make them consistent with both the new zoning ordinance and recent statutory changes made by the New Hampshire legislature.

Jim Carter and Doug Ruesswick are stepping down from the Board in March 1991. The Board expresses its gratitude to Doug and Jim for their many years of invaluable service to the Town. Also, the Board wishes to thank Carolyn Davidson who served as Planning Board secretary until the end of 1990.

The Planning Board meets at 7:30 p.m. on the second Tuesday of each month. The Board encourages your attendance at monthly public hearings and invites your participation in planning for Canterbury's future.

Respectfully submitted,

Jim Bassett, Chairman

Joseph Halla, Chairman

REPORT OF THE CONSERVATION COMMISSION

The Conservation Commission in 1990 had some accomplishments, especially in land protection. (see separate report) in addition to the "Riverland" area and "Shaker" area projects. "Earth Day" was celebrated with the dedication of "Peverly Meadows" on Baptist Road, and with a walk-a-bout to Peverly Falls, Shaker Ponds and the Meeh property.

On May Day, another sugar maple was planted along the center cemetery wall by myself and Jan Cote's 4-H girls. Also the Cushmans dedicated their efforts to saving the center elm by treating it with an anti-fungicide against Dutch Elm Disease.

The Commission is working with the Selectmen on managing town forest parcels and their timber harvest revenues. Dredge and fill applications are reviewed and a wetlands inventory is planned. Maintenance of Conservation areas continues along with a deer yard survey with Fish and Game officials.

The Commission will sponsor one or two persons; 14-18 years of age to the S.P.N.H.F. Conservation camp in June. Please contact Bob Fife before May if you are interested.

I would like to take this opportunity to thank my members and alternates for their dedication to the Commission.

Special appreciation goes out to past member Lenore Howe, who spent many hours on the "Riverland" acquisition through the "Trust for New Hampshire Lands". Ken Stern as well, has worked with Lenore and saw through the final acquisition of the "Riverland".

Thanks to our Selectmen, Planning Board and Road Agent "Hugh" for their cooperation. Thanks for help from Willie Nelson for donating loam I needed for maintenance in the Center, and for the final bid on the Riverland project!

In order to continue protecting the quality of our natural areas, the land fund needs the continuing revenue from the "Current Use Penalty Exchange Tax". We ask for your support in keeping the land fund endowed.

Respectfully,
Robert Fife, Chairman

CANTERBURY RECYCLING COMMITTEE REPORT

This has been an active year for recycling in Canterbury. Town Meeting voted recycling mandatory which set a standard for seriously addressing our town's potential for reducing its single-use waste. There has been tremendous enthusiasm and cooperation on the part of town's people for the whole process of separating and properly placing our recyclable materials at the Recycling Center. By the end of 1990 the changes have been successfully completed and adjusted to.

Here's what we have achieved:

- through contracted and volunteer labor, built new glass bins with a glass crusher to condense the glass and sorting tables to sift out potential contaminants from the glass
- recycled the old waste oil contained in badly rusted drums and replaced these with a 250 gallon drum which lowers the cost of recycling the oil
- converted the old glass bins to store newspaper, tin cans and aluminum cans
- recycled our huge, old scrap pile and replaced it with a concrete site and metal container for efficient, clean storage and removal
- removed the seriously polluting materials from the burn pile to the construction waste pile for safe storage in a lined landfill in northern NH (thus complying with State regulations)
- begun to compost leaves and grass clippings
- partially constructed an office for the facility attendants
- generally spruced up the grounds and layout of our facility
- applied for and received a grant from the State for \$4,100
- worked out the glitches so that our materials are moving to market

The Town Budget will show a cost overrun for recycling. This is due to an increase in cost for the new scrap metal site

over the original estimate. More concrete and re-enforcement were needed to create a safe site on which the truck could deposit the roll-off container. Another factor in the overrun was the newness of the program and the difficulty in projecting the amount of material Canterbury would accumulate. Scrap metal, in particular, accumulated quickly and in large amounts. We also added used motor oil to our program, after the fact, at the request of many town's people.

With nine months of experience the present marketing factors are understood and anticipated for 1991. The only addition the Recycling Committee hopes to include in our efforts is the recycling of our present tire pile and more active management of incoming tires for recycling. You will hear more about this at Town meeting.

Here is a run down of the amount of each material Canterbury recycled this year since April 21. Also included is the cost of disposal for some material, the revenue received for others and the savings we achieved by not taking certain materials to the Penacook incinerator.

Material	Amount Recycled	Cost	Revenue	Savings on deferred tipping fee
Used Oil	650 gallons	387.50	0	DA
Newspaper	23.31 tons	522.00	5.16	1033.32
Aluminum				
Cans	2734 lbs.	0	982.22	47.45
Tin Cans	4.85 tons	0	52.17	117.00
Batteries	25 batteries	0	25.00	DA
Glass	0	0	0	?
Scrap Metal	53.23 tons	977.20	267.95	DA

The Recycling Committee thanks everyone in Canterbury for their good work in recycling and expresses its appreciation to Allan Barton and David Heath for their steady efforts to make recycling work for us.

Respectfully submitted,

Melanie Stephens
Chairperson, Recycling Committee

LAND CONSERVATION REPORT

Aerial View of "Riverland" showing Beach Area, Oxbow Ponds and Farmland. Looking East from Boscawen Side of River.

In addition to its other activities, the Conservation Commission has continued its efforts for land conservation.

Riverland Conservation Area — After a long delay the parking area has been built and the area will be officially open after the spring floods recede. Until then please go walking or skiing but leave your car on the high ground. The farmer has built a fence around the private property and a barn to improve his ability to actively farm the area. The fenced area is private property under conservation easement.

Shaker Road-Meeh Easement — The town has entered into a conservation easement with several members of the Meeh family to permanently protect 250 acres from future development. The area includes active fields, three Shaker Ponds, a large wetland and a sugar bush. This action by the town has secured an additional 550 acres of Meeh property under conservation easement to the State under the Land Conservation Investment Program. The entire easement area of 800 acres which was originally Shaker land will remain undeveloped forever providing benefits to townspeople and wildlife. The Shaker Village is negotiating a similar agreement on 600 additional acres.

We offer our thanks and grateful appreciation to the Meeh family for their farsighted generosity. This large undeveloped area will be lasting legacy for many generations to come.

Respectfully,

Ken Stern
for the Conservation Commission

INDUSTRIAL LAND REPORT

The committee members are: Chance Anderson, Ron Coriveau, Sumner Dole, Bob Fife, Mary Ellen Fifield, Roy Glines, Doug Ruesswick, and Robert Scarponi. Sandy Dougherty was hired to keep the minutes.

The Committee has the responsibility of making recommendations to the Board of Selectmen regarding the future uses of the town-owned industrial land located near Exit 18. This land, about 65 acres, was acquired from the state in 1962 with the stipulation that it be used for commercial or industrial activities. Recently the land had been listed by the town with a realtor.

Although the committee has not completed its assigned task at this time, it has met several times, and has reviewed 1.) the need to appraise the property to determine its market value, and 2.) expressed concerns about the condition of the Norton Hildreth property that abutts the town land.

Lucia Kittredge was retained to consult with the committee on a number of topics including: 1.) the need to develop a range of desirable uses of the land, 2.) the need for a methodology to assess the benefits, impacts, and practicality of potential uses, 3.) to consider possible zoning changes, 4.) developing land use controls and performance standards consistent with the town's goals, and 5.) to develop an approach to marketing the property.

In addition, the committee met with Tim Winter of the DRED Office of Industrial Development, and reviewed the N.H. Economic Development Data System (NEDDS) which will help inform potential companies of the availability of the land and information about the town. He also provided information on industry contacts.

The committee plans to meet with Bill Klubben of the Central N.H. Planning Commission in the near future to discuss

a number of issues, including visual impact, zoning, rail status, traffic, the bridge, and future development of the immediate area.

The committee hopes to complete its responsibilities in the early spring and provide its recommendations to the Selectmen. Although this may not be the best time to sell the land, it does give the town the opportunity to adequately plan for the long term development of this valuable property as an asset to the town.

Submitted by Sumner Dole

CENTRAL NEW HAMPSHIRE REGIONAL PLANNING COMMISSION

329 Daniel Webster Highway
Boscawen, New Hampshire 03303
(603) 796-2129

The Central New Hampshire Regional Planning Commission (CNHRPC) is a voluntary association of 19 towns and the City of Concord in Merrimack and Hillsborough Counties. The Town of **Canterbury** is a member in good standing of the Commission.

The CNHRPC is organized under RSA 36:45-53 to prepare coordinated regional plans and to assist communities with local planning activities.

Our accomplishments over the last year include:

Housing: We assisted communities in implementing the recommendations of *Affordable Housing Needs in the Central Region*, published in 1989. The report identifies low and moderate income housing needs in the Region by municipality.

Regional Plan: We prepared a draft of the land use element of the regional master plan. The draft is scheduled for public hearing in February of 1991.

Solid Waste: The Commission assisted the Central NH and Hopkinton-Webster Solid Waste Districts in obtaining state approval of their *Solid Waste Management Plans*. The Commission had assisted each district in the preparation of their plans and continues to assist with implementation.

Recycling: The CNHRPC prepared a regional recycling status update, funded by a grant through the Governor's recycling initiative.

Household Hazardous Waste Collection: The CNHRPC organized its second household hazardous waste collection on

October 13, 1990, with collection sites in Bow and Warner. Cosponsors were the Towns of Allenstown, Boscawen, Bow, Bradford, Canterbury, Dunbarton, Hopkinton, Pembroke, Sutton, Warner, Webster, and Wilmot and Wheelabrator Concord, LP.

River Management and Protection: The Commission cosponsored the successful nomination of the upper Merrimack River to the NH Rivers Management and Protection Program. The Commission is cosponsoring the nomination of the Contoocook River this legislative session.

Water Resource Management and Protection Plan (WRM&PP): The Beaverdam Brook Plan, encompassing parts of Boscawen, Salisbury, and Webster is the first multi-town plan completed in New Hampshire.

Geographic Information System (GIS): The system, designed to map and manage geographic information, has been used in regional and town plans.

During 1990 CNHRPC activities in **Canterbury** included providing an electronic copy (on floppy disk) of model subdivision and site plan regulations, attending a work session on the subdivision and site plan regulations, providing alternative methods for regulating excessively deep lots, and providing solid waste and recycling information.

Bill Klubben
Executive Director

CABLE REPORT

The Town of Canterbury is not going to have a cable system in the near future.

Continental Cablevision was selected by the Cable Committee comprised of the Board of Selectmen, Robert Scarponi, John Pratt, and Sumner Dole. At a public hearing in June, Continental formally presented its proposal — the system would serve more than 95% of the homes in Canterbury.

Following the public hearing, Sumner Dole was given the responsibility to finalize the franchise agreement, have it reviewed by the Town's attorney to protect the town's interests, and present it to the Selectmen for signing.

The town's attorney found the agreement to be either deficient or vague and ambiguous in several areas, requiring modification. A major concern dealt with the description of the area to be served by cable. Where cable is going or not going in a town is the single most important criteria for a town to determine when it awards a franchise, and the town's attorney advised listing the telephone pole numbers at the system terminus on partially served roads. The requirement for submitting telephone pole numbers is a standard practice, where a system does not serve the entire town, but it would take several months to obtain this information. It would provide a better description, than the conceptual map submitted, of where cable was actually going and would eliminate a major loophole in the agreement. Without this change, the Town would not know specifically where cable was actually going to go, as the telephone pole numbers would not be supplied until three months after signing the agreement, and the agreement stated, "In no event shall company be required to extend feeder cable beyond 300 feet of the pole number submitted to the Town". It made sense to follow the town attorney's advice to wait, review the strand map and obtain the

pole numbers prior to signing the 20 year agreement and avoid possible misunderstandings, unrealized expectations, and lawsuits later on.

While the design map or strand map was being completed the economic slump, with its banking crisis, became a critical factor. The town's system, estimated to cost \$600,000, was a marginal investment, making it difficult for Continental to obtain the required capital to build the proposed system. Internally, the company had created new cable system investment guidelines and the Canterbury system exceeded their cost per home passed criteria by more than 30 per cent. The cable industry was experiencing a declining value, for loan purposes, of a potential subscriber as well. Continental also had to secure capital for the Concord franchise renewal and other towns where they had earlier signed franchises, including Weare, Chichester, and Nottingham. While Continental is the fourth largest cable company in the country, due to major changes in the banking industry it now had to deal with over 135 banks, instead of its usual 60. The cable industry like other sectors of the economy faced hard times and tight money supplies.

The realities of the economy and lending practices forced Continental to completely review its proposal and they submitted a drastically revised one. The new proposal would serve about 400 homes with 25 miles of plant with a density of 15.8 homes per mile; in sharp contrast to over 50 miles of plant, serving over 600 homes, and a density of 13.2 homes per mile. No construction would take place in 1991, and the system would not be completed until late 1992, or early 1993.

In a letter attached to the revised franchise agreement, Continental described the significant changes in the economy and within the cable television industry that forced them to modify the original proposal. The following are quoted excerpts:

1. Continental Cablevision remains interested in and committed to constructing, operating and maintaining a cable television system in the Town of Canterbury. The revisions

are a direct result of the downturn in the local and national economy.

2. The economy has affected Continental's ability to provide cable service to Canterbury in the following ways: Number one, banks are extremely reluctant, due to restrictions by federal regulators, to lend money. This has resulted in very tight limits on capital expenditures Continental may make in 1991 and following years. The local economy has also seen a significant slow down. This has resulted in cable television customers cutting back on or disconnecting cable service due to their discretionary entertainment budget shrinking.

3. We also had to take into consideration re-regulatory proposals under active consideration in the U.S. Congress and Federal Communications Commission (FCC). As a result of deregulation in 1986, Continental has been able to extend cable service to sparsely settled communities. A curtailment on our ability to set rates, based upon market conditions, hinders our expansion capabilities.

4. The factors for our revisions outlined briefly above are out of Continental's control.

The revised proposal was rejected, it made little sense to sign a 20 year agreement based upon the worst case scenario presented by Continental. Unfortunately, the Town was caught in the middle of a rapidly deteriorating economy and now must wait until it improves before it has a cable system serving a majority of its residents. Finally, there are no other immediate options to pursue with respect to other companies. Several area towns that signed franchises with other cable companies (that have now gone out of business) are not going to get cable in the near future either.

CHERYL A. GORDON, Town Clerk

history of the Village. On October 3 the last Shaker Eldress, Bertha Lindsay, (age 93) passed away quietly at her Village home, where she had lived for 86 years. Sister Ethel Hudson (age 94) remains as our living memory of the people and events which transpired here in a century which is fast closing.

The year 1990 has been a good one for the Village. Public service was expanded through Sunday openings and the extended season of November -December. Financial decline was halted and operating expenses were reduced. In addition to the Meeting House, the Village was able to begin major restoration of its only remaining barn, the 1819 Horse Barn. We anticipate completion of the barn by Wood Day (May 11) with the opening of an exhibit of horse drawn sleighs, carriages and equipment on Farm Day (June 1).

As the Village prepares for its Bicentennial, it is my hope that ties with the Town of Canterbury will grow stronger each year. We at the Village are proud that Canterbury is seeking to preserve its heritage and want to cooperate with Town officials and residents to contribute to the special character of the Town. We also want Canterbury residents to see the Village as a community resource for education, inspiration, quality food and hand-crafts, and wholesome family fun.

Thank you Canterbury for your support!
